

**RICHLY GOWNED WOMAN CASE**

**Fashionable Apartments in a Cincinnati Downtown Building Watched by Detectives**

**C. L. WARRINER STOLE ABOUT \$500,000**

**From the Big Four Railroad Company, of which He was the Local Treasurer at Cincinnati—Unknown Woman for Many Months Received Large Remittances from a Mysterious Source—Treasurer Talks Blackmail.**

Cincinnati, O., Nov. 8.—Beyond the fact that detectives in many parts of the country have been put on the search for certain persons who have been named by Charles L. Wariner in connection with the shortage of the latter as local treasurer of the Big Four railroad, there were no important local developments in the case early today.

Wariner released on \$20,000. Wariner, who was released on \$20,000 bonds last Saturday, spent Sunday with his family, resumed conference today with the railroad officers who are directing the search for him, and has been accused of blackmailing him out of thousands of dollars.

**Detectives Hunt for Mysterious Woman.** Fashionable apartments in a downtown building were under surveillance during the whole of last night, the local detectives having been informed that a richly gowned woman, whose name has been mentioned in connection with the case, was living there, but the investigation proved barren, and the woman has been found here.

It is learned that this woman came to this city after trouble with Edgar C. L. Wariner, who was released on \$20,000 bonds last Saturday, and that she stopped for a time at various hotels here and later in the Kentucky Highlands, since which time she has been living in the city.

**Regularly Received Large Remittances.** It developed today that inquiries

**PRESIDENT TAFT IN GEORGIA, SPEAKS AT INTERSTATE FAIR.**

The keynote of his address was National Sanitation.

Augusta, Ga., Nov. 8.—President Taft, who arrived here last night, spoke at the interstate fair here today, and was the guest of honor at a luncheon given at the hotel here.

The call upon him at the golf links, on his invitation of "Ty" Cobb, the baseball player, the extreme cordiality of the reception of the president, and the fact that he is the first president to visit this city, were the features of the day.

**TEMPORARY REPAIRS FOR CRIMINAL COURTS BUILDING.**

Regular occupants may return while structure is under observation.

New York, Nov. 8.—The special board of survey ordered to examine the \$2,000,000 criminal court building, which was recently condemned and vacated today, decided that after a week, the building should be closed, and regular occupants may take up their duties again inside its walls and remain there until the structure is ready for occupancy.

The board made a lengthy report in which it declared that the foundations on one side of the building had settled, causing the structure to lean, and that the tunneling of the subway under the building drew large quantities of sand from the foundation.

**\$10 THIEF HAS COST \$30,000.**

Large Sum Spent in Hunt for Bandit Who Stole Bag of Lincoln Pennies.

Lewistown, Pa., Nov. 8.—Search for a bandit who held up a Pennsylvania railroad express train in the Narrows, near here, more than two months ago, still continues, nearly 200 men being engaged in the hunt. A reward of \$10,000 has been offered by the railroad corporation and the Adams Express company to find the man who stole \$10 in Lincoln pennies, and so far as is known, there is absolutely no clue.

For the first two weeks as many as 400 men were engaged in the hunt, and some of the best detectives in the employ of private agencies were called in to help. Almost every inch of the ground for miles around the place where the hold-up occurred has been gone over.

The theory that the robber is someone who had been in the employ of the company has not been abandoned. Notwithstanding that the railroad and express companies declare the amount of money stolen was very small, there are many who believe the loot was large.

**Body of Woman Found in White River, Near Indianapolis.**

Indianapolis, Ind., Nov. 8.—The body of a woman was found today in White River, eight miles north of Indianapolis. The body had lodged in the limbs of a tree that hung in the water. It was well clothed, but no sign that would lead to immediate identification. The body probably had been in the river since Saturday. There were no marks on the body.

**Large Fortune Left by President's**

**A. F. of to State By Gompers**

London, Nov. 8.—Lionel Brough, the comedian, died here today.

Lima, Peru, Nov. 8.—Miguel Iglesias, the Peruvian general and statesman, died today.

Havana, Nov. 8.—The Almendares baseball team defeated the Detroit American league team today by a score of 13 to 2.

Madrid, Nov. 8.—King Manuel of Portugal, who is on his way to London to visit King Edward, arrived here today, accompanied by a large suite.

Madrid, Nov. 8.—The Spanish government today restored the constitutional guarantees in the Catalonia provinces of Barcelona and Gerona, which were suspended last July when the revolt broke out in those provinces.

**LESS STARTLING COSTUMES SHOWN.**

More Interest in Entries Than in New Gown—National Horse Show.

New York, Nov. 8.—Heavy skies and a steady drizzle outside detracted nothing from the brilliancy of the first night of the twenty-fifth national horse show at Madison Square Garden.

Never does the garden look so well as when the floor is spread with tanbark and the white walls of the enclosing boxes gleam, but tonight with the ceiling draped in blue, the girders and supports cased in green, and the latticework of the balcony painted and glistening with colored electric lights, the semblance of an outdoor meet at a village track was better simulated than ever.

Judging began this morning at 10 o'clock, but society did not fill the boxes until this evening. Costumes were not so startling this year as some that have been seen before and there was more interest in the horses than in the white shoulders and new gowns in the boxes.

Attention centered for the day on the British and Canadian army officers, who appeared here for the first time in the history of the association. Their showing in the jumping class was far behind the general run of entries and they failed to take a prize of any sort.

The only mishap of the day occurred late today. Judge William H. Moore of New York, who was in charge of the harness horse show, was thrown from his horse when he was jumping a fence.

The classes were so large that they had to be shown in squads and judging was much delayed. George Watson of Chicago, who was in charge of the harness horse show, was thrown from his horse when he was jumping a fence.

**Mrs. Roosevelt To Sail Friday**

Homebound Accompanied by Miss Ethel.

Colonel Roosevelt Not Ill.

The Report of His Sickness Is an Absolute Lie, Says a Reassuring Telegram from Nairobi.

London, Nov. 8.—As yet no despatcher has been received by Mrs. Roosevelt from her husband or son Kermit regarding the report of the ex-president's illness, but following the receipt on Saturday of a telegram assuring telegrams from Nairobi, and other came to her today from Mr. Newland of the first of Newland & Tarleton, saying:

Runners Sent to Roosevelt Camp.

The report of Colonel Roosevelt's sickness is an absolute lie. I am unable to communicate with Mr. Roosevelt, but I am sure that he is well and that he is not ill.

Mrs. Roosevelt and her daughter, Miss Ethel, are expected to sail for home today.

DR. F. A. COOK ANSWERS REAR ADMIRAL CHESTER CONCERNING EXPLORER'S ALLEGED ERRONEOUS LOCATION BY THE MIDNIGHT SUN.

New York, Nov. 8.—Although he announced early in the evening that he had retired to a quiet place "away from New York," Dr. Frederick A. Cook caused to be issued through a friend tonight a statement in answer to Rear Admiral Chester of the National Geographic Society, who had criticized the Brooklyn explorer's claims in an interview at Washington. In answer to the statement issued by Admiral Chester is the suggestion of erroneous location by the midnight sun.

**SENATOR ALDRICH IN ST. LOUIS**

Speaks to Bankers at Noon Day Club and Later to Members of Commercial Club

Reform of U. S. Currency System

To Devote Himself to this Work—Reform Under the Broadest National Lines—System Must be One to Satisfy New England People, Mississippi Valley Farmers, a Pacific Coast Miners and Merchants of All Sections

St. Louis, Nov. 8.—With even stronger emphasis than he used in his Chicago speech, Senator Aldrich made it evident to the business men of St. Louis today that he is not only in his purpose to devote himself to the work of reforming the currency system of the United States, but that he is one of the country and it must be the result of practical suggestion rather than of theoretical disquisition.

The Subject of Bank Issues.

The nearest approach that Mr. Aldrich made to any indication of a plan was his remark that the subject of bank issues. He again mentioned the fact that the European countries were agreed on that subject and again referred to the great necessity of finding a plan which would not disturb established banks or interfere with the business of the country.

He said, however, that it could not be expected that any European banking system could be transplanted in its entirety to the United States, and he again pointed out the great necessity of finding a plan which would not disturb established banks or interfere with the business of the country.

He said, however, that it could not be expected that any European banking system could be transplanted in its entirety to the United States, and he again pointed out the great necessity of finding a plan which would not disturb established banks or interfere with the business of the country.
